TRANSCRIPT

#66: This will be a CENTER LANE Interview for 1000 hours 16 June 1983. Focus your attention now on the individual in the photograph I've shown you, on the time window 1400 hours Eastern daylight time, 14 June 1983, and describe his location to me.

#08: .....There is a difference in time. ...The a...it is..much later in the day.

#66: Paying attention to this time--

#08: --The.....the.....the place is very barren...the persistent impression of a..a chain link fence, a topped off with a barbed wire apron. This is a...isolated area..in the country. There's a body of water,.....bay.....some.....some 30 miles to the east,..there's a flavor of the darkness of..of gloom..and a terrible feeling of isolation.  
.....

#66: I do not recognize the place you're describing. Perhaps we have a time shift problem. It's necessary for me to know on the 14th of June at 2:00 o'clock in the afternoon, our time, the location of this individual.

#08: .....Okay...There is a huge, huge..window that you find in a transportation terminal. ...There is also red carpet in the..area in front of this huge window and that's where he is. He is associated with what I've described earlier.

#66: It's possible. Describe the area with the red carpet to me.

#08: There's a..very huge rooms that you associate with transportation terminal,...very a..very clean, very... like a waiting room in an air terminal

#66: This room has a very large feeling to it?

#08: Say again.

#66: The room has a very large feeling to it?

#08: Yes, very, very high.

#66: As you see him, tell me the scene that you perceive him.

#08: He's looking through this huge a.. window, ...waiting. It's also,..that area is also cordoned off with a...decorative a...rope with that red velvety material. Again the flavor's of a...waiting room, transportation terminal.

#66: All right. Now, let's creep forward a little bit in time, very little and see what he's waiting for. See what happens.

#08: .....I'm going to take this a little bit at a time 'cause...he carrying a case with two handles...a black... leather case. And he has a...coat over his arm. ....The case..is important, traveling case. It's not a normal square briefcase, it's a...flat briefcase. ....Are you interested in the nature of the (mumble), of the...The papers in the briefcase are destined to, for--

#66: Perhaps if we move to see what he's waiting for, the--

#08: Okay, let's stick to the transportation then.

#66: Now I, listen to me very carefully and be very careful. This place that you've described, I do not believe is a transportation terminal.

#08: Oh, okay.

#66: But this place that you described may very well match where he is at this time, an open area, a waiting area--

#08: Yes.

#66: --cordoned with things and big windows?

#08: Yes, yes.

#66: But let's see what it is that he's waiting for. Just let the information come.

#08: He's waiting for a uniformed person,.....who is to bring him to some place.

#66: Describe what happens, to me.

#08: .....And he's met by a second person,.....an official representative. ....I got to get rid of some of this thing if we're going to progress. The second official..has a... tie that's not knotted like an american tie, it's a very tight, tight...small knot. ....It's (mumble), It's (mumble) associated with a Latin American. .... Eventually,....this guy stayed there a long time. He moves up a....long,..white marble or granite staircase, very...ornate, white...inside that building. And he is..received in a very...ornate office, with very huge, what appears to me to be huge, ...wooden, dark, shiny doors. It has all the ear marks of...official representation, such as a..a..consulate and see something like that. A....there's a..meeting..with a rather short, bald headed man. ....He came in a very ornate official type looking room. ....Did you want to explore this anymore--

#66: Yes, I'm interested in the meeting.

#08: Uh, uh.

#66: I'm interested in this meeting that happened.

#08: What do you want to know about it?

#66: What is the purpose of the meeting?

#08: .....There is diplomatic...and...it..represents an agreement. ....Which also represents an acceptance of...that's what I'm having a hard time with what the hell is he selling.....It's an acceptance of....of personnel....It's an acceptance of personnel, aid by the bald headed man,..offered by the guy in the photograph, acceptance of personnel. ....It's very hard for me to see it,...arms personnel. I can't get anymore out of this.

#66: Okay, fine. I have no further questions.
